SUMMARY

Full Stack Web Developer with a background in Geography, Geographic Information Systems, Archiving and dedication to learning and developing skills. Autodidact, with the ability to apply problem solving skills and technical background to develop user-centered applications. Accomplished in the initialization and building of pilot projects that include:

- The Utilities GIS Data Collection and Mapping project for the development of a GIS Database for the City of Hughson in California.
- GIS Mapping for the Amazon Delivery Project, contracted through Insight Global.
- GIS Mapping for the Apple Maps Revamp project, contracted through Apex Systems.
- Analog File Digitization project for the Amador County Archives in Jackson, CA.

TECHNICAL SKILLS

JavaScript ES6+, CSS3, HTML5, SQL, NoSQL, GitHub, MongoDB, MySQL, Express, React, Node, Handlebars, jQuery, Bootstrap, GIS Proprietary Software, Data Collection, Digitization, Archival Processing, Archival Standards, Records Management, QGIS, Apple Map Application Software, FME, ArcGIS, OpenStreetMap, Survey 123, Microsoft: SharePoint, Word, Excel, and PowerPoint.

PROJECTS

Project Name | Link to GitHub | Link to Deployed Project [always write out link addresses]
Short summary of project (1-2 lines)
Your core responsibilities in project (1-2 lines)
Tools / languages used

The Coding Quiz | GitHub Repo | Deployed Project
- Summary: Timed quiz that stores high scores
- Role: Sole author
- Tools: HTML, CSS, JavaScript, jQuery, Bootstrap

Time Block Schedule | GitHub Repo | Deployed Project
- Summary: Calendar app that allows user to save events for each hour of the day
- Role: Sole author
- Tools: HTML, CSS, JavaScript, jQuery, day.js

The Travelor Weather Dashboard | GitHub Repo | Deployed Project

- Summary: Weather forecast app that allows user to find the current and 5 day forecast of cities
- Role: Sole author
- Tools: HTML, CSS, JavaScript, jQuery, API, Bootstrap, day.js

FilmFinder | **[GitHub Repo](#)** | **[Deployed Project](#)**
- Summary: Movie finder app
- Role: Wireframe and CSS styling
- Tools: HTML, CSS, JavaScript, jQuery, Bulma CSS, API

EXPERIENCE

Location Moderation Specialist   **March 2022 to July 2022**
Snap INC.   **Remote 5 month contract**
Quality check Snap user submitted venue reports to add venues to Snap Map for user accessibility.
Key tasks:
- Use of proprietary mapping software to edit venue location points to ensure the user is directed to accurate destination.
- Filter venue reports and collaborate with team to quality check data and verify venues to provide users most up-to-date information and activity.
- Manually create venue locations to assist venue owners in adding business to Snap map, allowing for accessibility to Snap users.

Insight Global   **March 2021 to July 2021**
GIS Analyst   **Remote 5 month contract**
Digitized and edited map features for Amazon's Delivery Project.
Key Tasks:
- Use of OpenStreetMap to digitize apartment complexes and access points to direct Amazon delivery drivers for faster, more accurate delivery of packages to residents.
- Use of QGIS mapping software to add attributes to digitized features and georeference map to physical location.
- Use of SharePoint to upload and share project files with team.

Apple via Apex Systems   **2019 - 2020**
GIS Technician   **Sunnyvale, CA**
Digitized and edited map features for Apple Maps Application Revamp Project
Key Tasks:
- Use of Apple proprietary GIS software to edit and digitize roads, buildings, and directional features for the Apple Maps Application.
- Use of QGIS mapping software to create and analyze collected data features to implement into map application.
- Use of FME to preprocess data and create output data files.
- Uploaded files to share using BOX.

Amador County Archives   **2017 - 2019**
Archives Assistant   **Jackson, CA**
Convert analog files to digital, preserving historical materials and increasing their accessibility
Key Tasks:
- Assist customers by retrieving materials filled out on a form, scanning documents, and answering phone and email requests.
- Records management: File and retrieve records belonging to Amador County organizations.

City of Hughson   **July - December 2018**
GIS Data Collection and Mapping Intern   **Hughson, CA**

Collect and map city utilities for workflows and the implementation of a GIS Database for the City of Hughson.
Key Tasks:

- Field Experience: Locate and map city utilities (fire hydrants, storm drains, sewage lines, water valves, and street signs) using Survey 123 to help build Hughson's GIS database.
- Manage GIS database to ensure quality and organization of data by editing and analyzing collected utility data points.

EDUCATION

Certificate in Full Stack Web Development
UC Berkeley Coding Bootcamp - Berkeley, CA - November 2022 to May 2023
A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node.js, MySQL, MongoDB, Express, Handelbars.js, and ReactJS. *Program Summary optional*

Bachelor of Science in Geography
Arizona State University - Tempe, AZ - August 2016 to December 2018
Summa Cum Laude GPA 4.0

Associate's degree in General Studies, with an emphasis in History
Modesto Junior College - Modesto, CA - January 2011 to April 2016
